A modest offer is said to have been proposed by the Pittsburg management. A willingness is alleged to transfer Leach and Edy into quarters at the little red chapel on the Polo Grounds in exchange for George Davis! Guess again. Col. Dreyfuss, then ask the fans how that would strike them. Davis is worth all there is on the whole bargain counter in Pittsburg and money to boot. New York wants its infield added to, not taken away from, and "Old Hones" Ely, as a proposition to replace Davis, doesn't compensate for the loss, even with Leach, much needed as the latter is, thrown in. Ely is a good fielder, but doesn't class with the only George as a hitter or run-getter. Perhaps Epp's victory will increase the handleappers respect for the mare. Yesterday was the first time that she had had any weight off and she was backed with a confidence not warranted by any of her previous performances. She carried 12 pounds and won as she pleased in one of the fastest races ever run over the track. Instead of Kinley Mack giving her weight she can concede him something. It is doubtful if the handleapper will again be fooled into taking weight off this mare. She has shown that she is good and if she does not run up to form in her subsequent performances then the stewards ought to take a hand.

Though Fridays are not claimed by the Coney Island Jockey Club, it has been decided to use them during the coming meeting and on those extra days races will be run out of the new chuie. It was not deemed wise to put any of the regular events on over this course.

Steel and Wire stocks. Gains in the group ranged from 1 to 2. The rise in Brooklyn Union Gas was extended to 8 points and other public utilities rose a point or over.

A rise of nearly 2 points in American Tobacco helped the market. In the railroad list prices generally recovered to the best and Missouri Pacific railled 13-8. Pressure against Sugar put it below 118 and ohecked the rise elsewhere. Prior to this business was livelier in railroad stocks. Western stocks were the best gainers.

After a period of hesitation, due to the effect of the reaction in Sugar, the advance was taken up again in the railroad list.

The largest absorption was of the Atchisons and of Burlington. Atchison preferred rose 1 7-8 and Burlington 2 1-8. Missouri Pacific, St. Paul and People's Gas were in good demand and the whole list was benefited by the movement.
